I'm a motivated individual who is continually cultivating the gesture, performance, expression and aesthetic quality in my work as an animator that I take great pride in bringing to a professional team as a worthy contributor to a creative endeavor.

## INDUSTRY EXPERIENCE

**Tiger Aspect . Mr Bean Animated Series – Jr Animator** 07/18 – 07/19

I worked as a full time Animator on Bean, entirely responsible for the shots assigned to me. The show was animated in Cel Action which I efficiently learnt on the job.

**BlueZoo . It's Pony! – Animator** 07/19 – 07/20

As a full-time animator on the show, I had full responsibility for character animation referenced from the animatic for all shots assigned to me in ToonBoom Harmony.

**Yotta Studios . Smiling Friends – Animator/ Storyboarder** 03/23 – 09/23

Working with scripts and a rough audio track, I had complete creative freedom over the direction of my scenes, boarding then creating an animatic using Adobe Animate. I was brought back on board the show as an Animator after wrapping up Storyboards, working in Adobe Animate from rough animation through to clean up and colour.

## FREELANCE

**FaxJam . Animator and Content Creator** 07/20 – 06/23

Animator + content creator for FaxJam, a channel and community I have managed that is focused on cartoons and the world of animation. As well as producing over 50 short animation projects I have also cultivated an audience through social media management and worked in collaboration with companies such as Makeship to create merchandise such as plush toys to sell to a subscriber base of 270k and growing.
